

7 MATTAR ROAD 387716

# MATTAR RESIDENCES

FREEHOLD

QUALITY CITY FRINGE LIVING

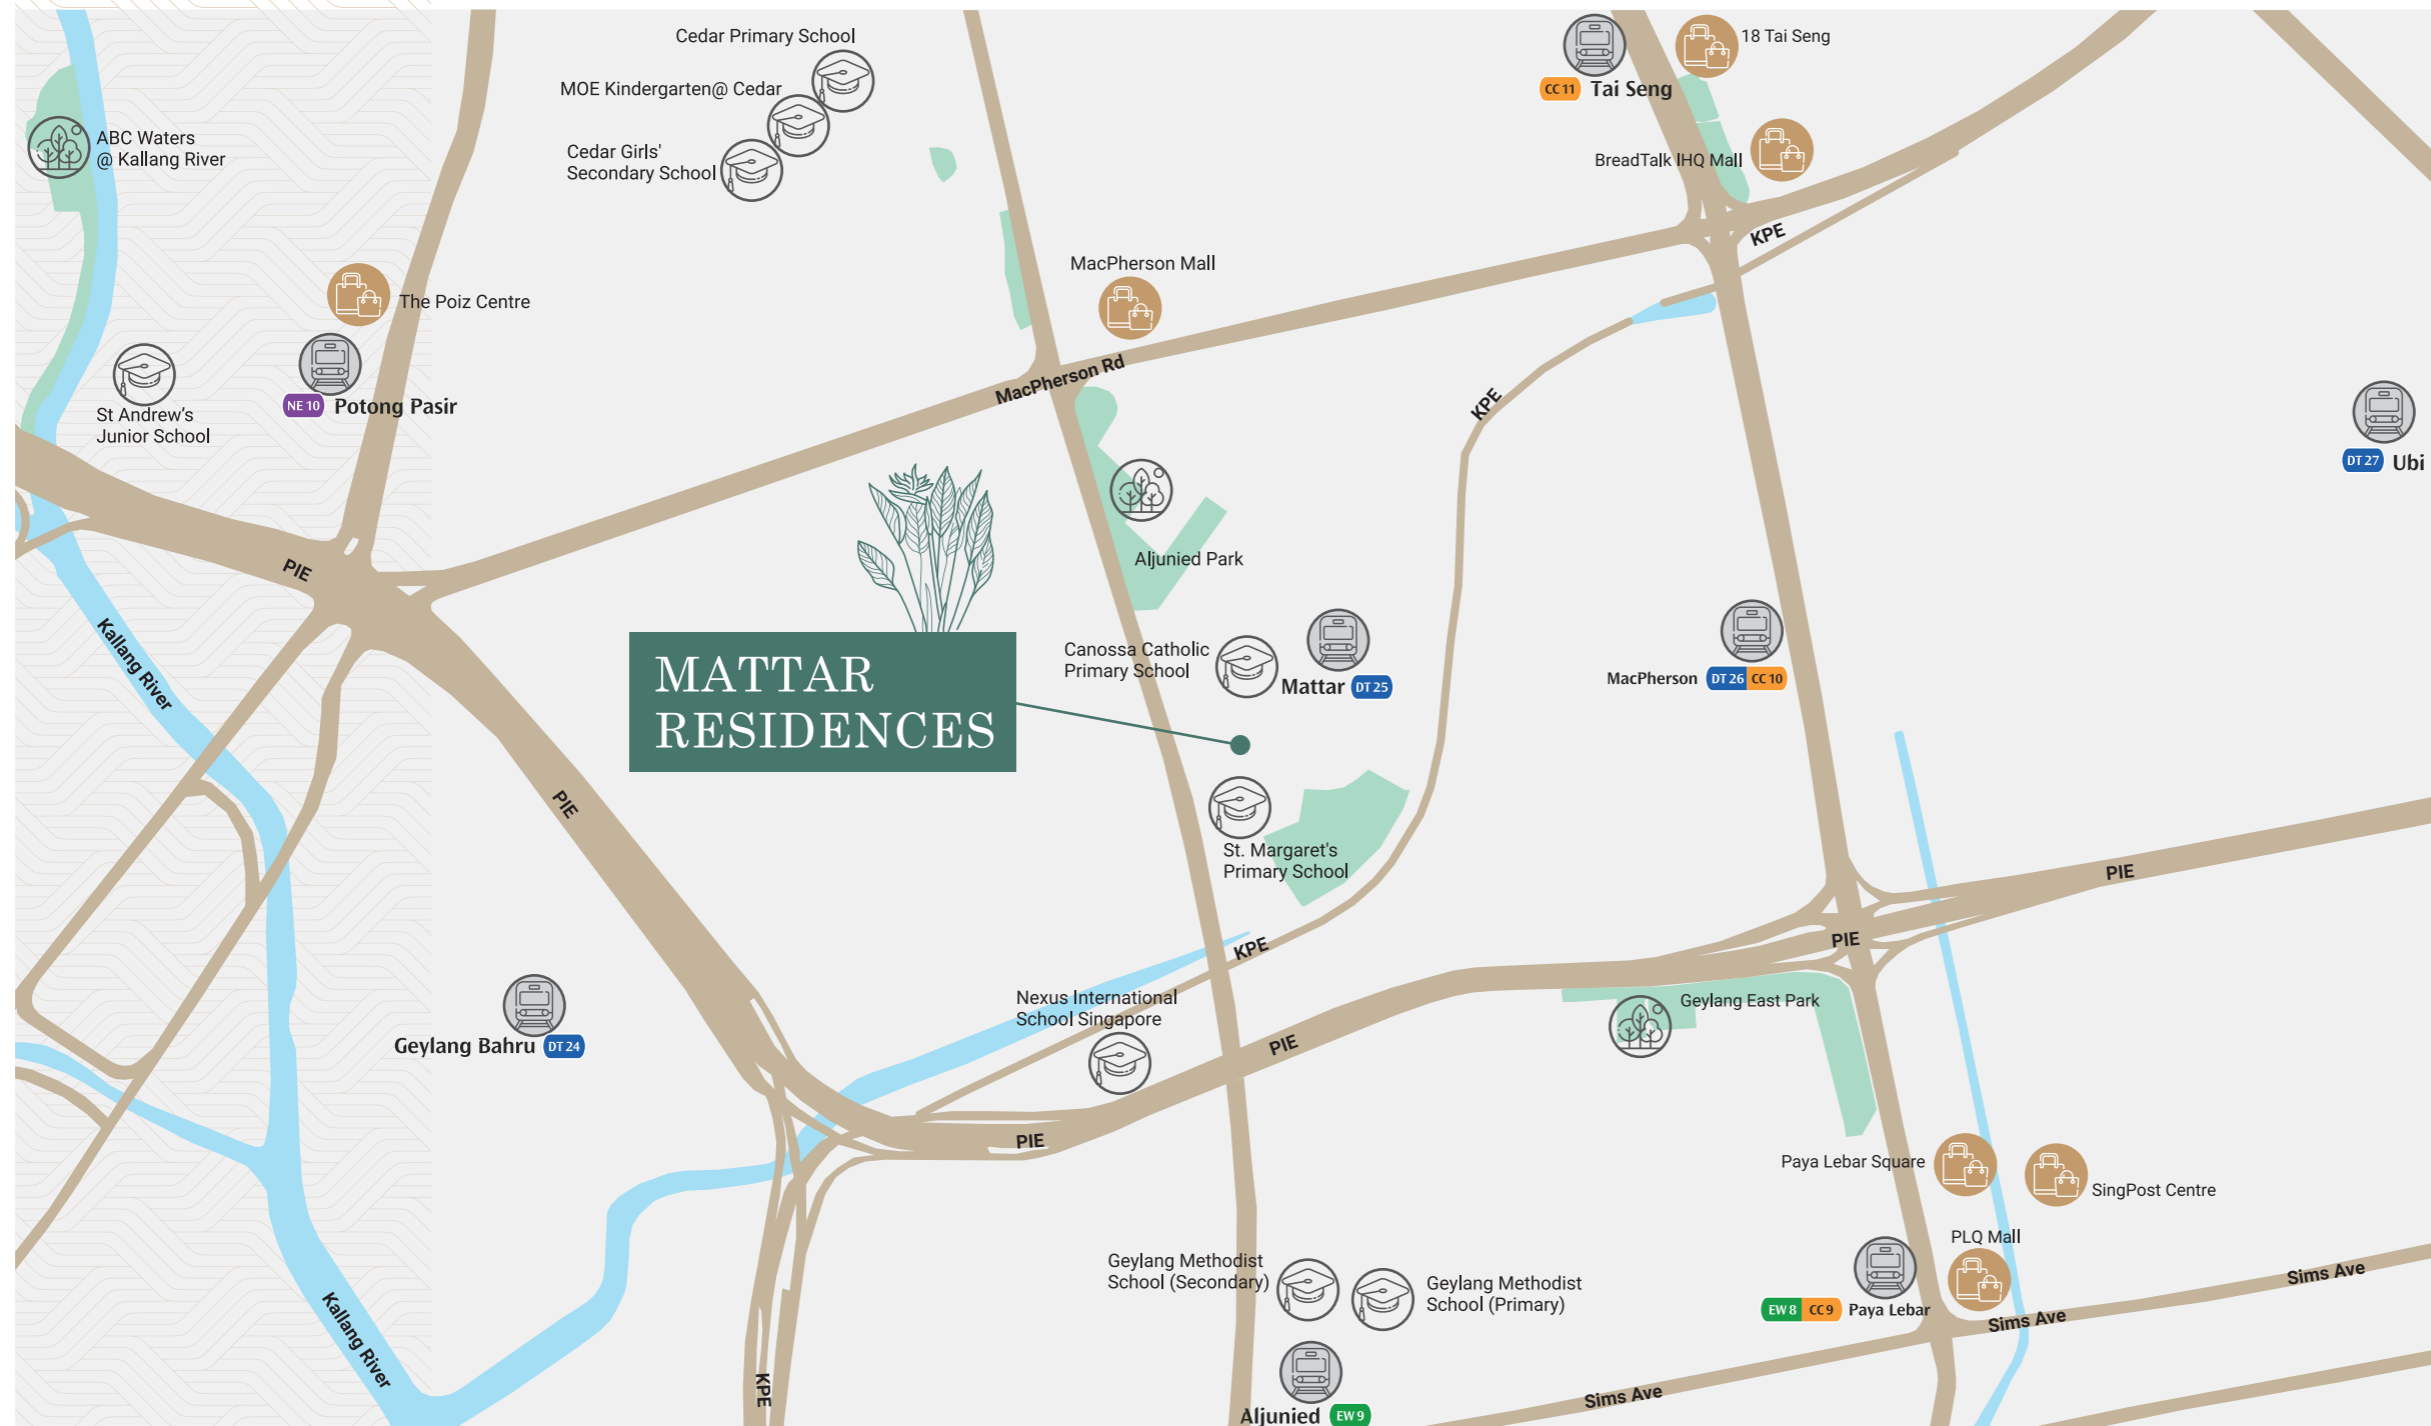

Mattar Residences is strategically located at 7 Mattar Road, Singapore District 14. This development has 26 units that has various types that are able to shelter solo residents and small families.

Despite its quiet location, Mattar Residences remains highly accessible via a wide range of transport options. Most notably, the nearby Mattar MRT station, which services the Downtown Line, is only 4-minutes away by foot. Thanks to the strategic position of Mattar MRT station along the Downtown Line, residents can easily access other train lines such as the Circle Line via MacPherson MRT interchange, North-South Line via Marina Bay MRT interchange.

Pick up your daily necessities from multiple shopping centres within close proximity of Mattar Residences, such as Paya Lebar Quarter, Paya Lebar Square and Singpost Centre - all of which are accessible via an 8-minute drive.

This vibrant trio of malls at Paya Lebar MRT station is brimming with amenities, from award-winning restaurants and trendy cafes to a whole array of retail and entertainment options. For an afternoon well-spent, you can drop your kids off at an indoor playground at Paya Lebar Quarter, then simply unwind at one of the many al-fresco dining outlets or go on a much-needed spa therapy - the options are countless!

Fitness enthusiasts at Mattar Residences will have plenty of options when it comes to switching up your exercise routine. For starters, you can take a leisurely 8-minute jog to the nearby Aljunied Park - a large family-friendly park with a playground and exercise stations. You can also go across the road from Mattar Residences and book a football pitch at Home United Youth Football Academy for a round of soccer with the boys.

The Mattar Residences offers a variety of layouts that showcase 1-4 bedroom units, catering to buyers with different needs. Each unit comes with a balcony, providing an outdoor space that's closer to nature.

Every unit features a welcoming interior, designed to possess a classy and timeless feel. Fittings and specially crafted materials are chosen for their high aesthetic quality. Additionally, the units boast high ceilings, allowing for excellent air circulation and an enjoyable space.

Mattar Residences also provides an array of facilities that offer enjoyable services for its residents. Fitness enthusiasts can make use of the available gym, while a relaxing pool allows residents to recharge their bodies after a hot and tiring day. Children can play with their peers in the property's own playground, and a social deck with barbecue pit is available for gatherings and outdoor meals. Lastly, residents can relax and unwind at the rooftop with unobstructed views.

Visual representations including models, drawings, illustrations, photographs, art renderings and graphic representations portray artistic impressions only and are not to be taken as representations of fact. Floor areas and other measurements are approximate only and are subject to final survey. All information, plans, specifications and visual representation are current at the time of print and are subject to changes as may be required or approved by the vendor and/or the relevant authorities. The Sale and Purchase Agreement shall form the entire agreement between the vendor and the purchaser and shall in no way be modified by any statements or representations (whether contained in this brochure or given by the vendor's agents) or otherwise). The vendor reserves the right to modify any part or parts of the building, housing project, development and/or any unit prior to completion as directed or approved by the relevant authorities.

FOR INTERNAL USE ONLY, NOT FOR CIRCULATION

1. **FOUNDATION**  
Reinforced concrete piles.
2. **SUBSTRUCTURE**  
Reinforced concrete and/or precast reinforced concrete structure.
3. **WALLS**
  - a. **External Wall**  
Reinforced concrete wall and/or light weight concrete panel and/or pre-cast reinforced concrete wall and/or curtain wall system.
  - b. **Internal Wall**  
Reinforced concrete wall and/or light weight concrete panel and/or pre-cast reinforced concrete wall and/or concrete blocks and/or drywall partition.

4. **ROOF**  
Flat roof:  
Reinforced concrete roof with appropriate insulation and waterproofing system.

5. **CEILING**
  - a. **Floor to Ceiling Height**

Areas	Clear Ceiling Heights (mm)	
	Unit 01-01 (Type C1-P)	Typical Floor Units (2nd – 5th Floor)
Entrance	Approx. 2900	Approx. 2725
Living Room	Approx. 4475	Approx. 3225
Dining Room	Approx. 4475	Approx. 3225
Master Bedroom	Approx. 4475	Approx. 3225
Bedroom 2 / 3 / 4 / Study	Approx. 4475	Approx. 3225
Kitchen/ Kitchenette	Approx. 2550	Approx. 2550
Hallway	Approx. 2800	Approx. 2750
Master Bath / Bath 2	Approx. 2550	Approx. 2550
Utility (Type D1a, D1b, D1c)	NA	Approx. 2650
Balcony	Approx. 4450	Approx. 3200

Note: Measurements stated are not inclusive of localized box-up / bulkhead.  
All bulkhead ceiling height at designated areas is approx. 2400 mm

- b. **Apartment**
  - (i) **Kitchen**  
Moisture resistance ceiling board and/or ceiling box ups and/or plaster ceiling board and/or skim coat with paint finish to designated area.
  - (ii) **Bathrooms**  
Moisture resistance ceiling board and/or ceiling box ups and/or plaster ceiling board and/or skim coat with paint finish to designated area.
  - (iii) **Living, Dining, Bedroom and Study**  
Concrete slab with skim coat with or without plaster ceiling board and/or ceiling box ups and/or cement/sand plaster to designated area.
  - (iv) **Balcony**  
Concrete slab with skim coat and/or ceiling box ups and/or cement/sand plaster to designated area.
  - (v) **Utility Room**  
Concrete slab with skim coat with or without plaster ceiling board and/or ceiling box ups and/or cement/sand plaster to designated area.

- c. **Common Area**
  - (i) **Lift Lobbies at 1st storey, typical lobbies and roof terrace.**  
Plaster ceiling board with paint finish and/or cement plaster ceiling box-up with paint finish to designated area.
  - (ii) **Carpark & Staircase**  
Skim coat and/or cement and plaster ceiling with paint finish and/or ceiling board with paint finish and/or metal panel ceiling with powder coated paint finish to designated areas.

6. **FINISHES**
  - a. **Walls**
    - (i) **Apartments**
      - **Living, Dining, Bedrooms, Study, Hallway leading to Bedrooms, Balcony and PES**  
Skim coat and/or cement/s and plaster with emulsion paint finish to exposed surfaces only.
      - **Bathroom**  
Porcelain tile to designated exposed surface below false ceiling.
      - **Kitchen / Kitchenette**  
Porcelain tile and/or ceramic tile and/or skim coat and/or cement/sand plaster with emulsion paint finish to designated exposed surface below false ceiling.
      - **Balcony / Private Enclosed Space (PES)**  
Cement/sand plaster with paint finish and/or skim coat with paint finish.
      - **Utility Room**  
Cement/sand plaster with paint finish and/or skim coat with paint finish.
    - (ii). **Common Areas**
      - **Lift Lobbies at 1st Storey**  
Stones and/or tiles and/or cement and plaster with paint finish and/or skim coat with paint finish to designated exposed surface below the false ceiling.
      - **Lift Lobbies at Typical Storey**  
Tiles and/or cement and plaster with paint finish and/or skim coat with paint finish to designated exposed surface below the false ceiling.
      - **All External Wall Finishes**  
Cement plaster with emulsion and/or spray textured paint finish.
      - **Ground Level Carpark**  
Skim coat and/or cement/sand plaster with paint finish.

- b. Floor
- (i) Apartments
- Living, Dining, Kitchen, Study & Utility Porcelain Tile with skirting
  - Bathroom, Porcelain Tiles
  - Bedroom, Timber flooring with skirting
  - Balcony, Porcelain Tiles
  - AC Ledge, Cement/ sand screed
- (ii) Common Area
- Lift Lobbies at 1st Storey Stone and/or tiles
  - Lift Lobbies at Typical Storey Tiles and/or cement sand screed.
  - Staircases Cement/sand screed with nosing tiles
  - Gym High density Rubber Tiles

Note All floor finishes are to exposed surface only :

7. WINDOWS

- All windows of the apartment will be aluminium-framed casement and/or top hung window and/or fixed glass panels.
- a. All aluminium frames shall be powder coated.
- b. All glazing shall be minimum 6mm thick clear and/or tinted glass and/or frosted glass.
- c. Where windows is not provided in the Bathroom, mechanical ventilation shall be provided.
- d. Windows will be provided with restrictors for all units.

8. DOORS

- a. Apartments
- (i) Main Entrance
- Approved Fire-rated timber door
- (ii) Bedroom and Bathroom
- Timber Hollow-core swing and/or sliding door
- (iii) Kitchen / Kitchenette
- Timber Sliding Door for Kitchen at Unit Types B2, C1 and D1
- (iv) Balcony and Private Enclosed Space (PES)
- Aluminium framed glass sliding door
- (v) Utility Room
- Aluminium framed bi-fold door

9. SANITARY FITTINGS

- a. Master Bath and Bath 2
- (i) 1 vanity top complete with 1 basin and 1 basin mixer
- (ii) 1 shower compartment complete with shower mixer set
- (iii) 1 mirror
- (iv) 1 water closet
- (v) 1 towel rail and/or 1 robe hook
- (vi) 1 toilet paper holder
- b. Kitchen
- (i) 1 kitchen sink with tap
- c. Washing Machine Compartment (in Kitchen/ Kitchenette/ Cabinet)
- (i) 1 bib tap (for washing machine)

10. ELECTRICAL INSTALLATION

- a. Electrical wiring within the unit shall generally be concealed, except those above the suspended (false) ceiling, within DB and at the AC ledge, which shall be in exposed conduits, trays or trunking.
- b. Refer to Electrical Schedule attached herewith for details.

11. TV/CABLE SERVICES/FM/TELEPHONE POINTS

Refer to the Electrical Schedule attached herewith for details.

12. LIGHTNING PROTECTION

Lightning Protection System shall be provided in accordance with Singapore Standard SS555.

13. PAINTING

- a. Internal Walls : Emulsion paint.
- b. External Wall paint : Emulsion paint and/or textured coating and/or selected exterior to expose area only.

14. WATER PROOFING

Waterproofing shall be provided to floor of Bathroom, Kitchen, Kitchenette, Private Enclosed Space (PES), Balcony, Reinforced Concrete Flat Roof, Planter, Relaxing Pool, Accessible Toilet.

15. DRIVEWAY AND CAR PARK

Surface driveway

Selected Pavers and/or stones and/or reinforced concrete slab and/or grass-cell pavers and/or tarmac (where applicable)

16. RECREATION FACILITIES

- |  |  |
|--|--|
| <p>Roof Top Facilities</p> <p>(a) Relaxing Pool</p> <p>(b) Gymnasium</p> <p>(c) Play Area</p> <p>(d) Social Deck</p> <p>(e) Barbeque Pit</p> | <p>Other Facilities</p> <p>(a) Electrical Switch Room</p> <p>(b) Generator (Roof Level)</p> <p>(c) Bin Point</p> <p>(d) Bicycle parking lots</p> |
|--|--|

17. ADDITIONAL ITEMS

- a. Kitchen Cabinets and Appliances
- Solid surface countertop complete with high and low level kitchen cabinets in laminate and/or melamine finish complete with stainless steel sink with mixer, hood, induction hob, built-in oven.
- b. Bedroom Wardrobe
- Built-in wardrobes with laminate and/or melamine finish are provided to bedrooms. Bulkhead shall be installed where necessary
- c. Air-conditioning
- Split unit air conditioning system to Living/Dining, Study and Bedrooms. Refrigerant used shall be of the type R32.

- d. Electric Storage Hot Water
- Hot water supply shall be provided to all Bathrooms (except Kitchen)

e. Security System

- (i) Audio Intercom between respective 1st storey Lift Lobbies and Apartment units where applicable.
- (ii) Motorised gate system at main entrance.
- (iii) Proximity card access system to 1st storey Lift Lobby, side gate and gym.
- (iv) Closed circuit telecom system (CCTV) at designated common areas.

NOTES TO SPECIFICATIONS:

- A. Marble/Compressed Marble/Limestone/Granite**
- Marble/compressed marble/limestone/granite/stone are natural stone materials containing veins with tonality differences. There will be colour and markings caused by their complex mineral composition and incorporated impurities. While such materials can be pre-selected before installation, this non-conformity in the marble/compressed marble/limestone/granite/ stone as well as non-uniformity between pieces cannot be totally avoided. Granite tiles are pre-polished before laying and care has been taken for their installation. However, granite, being a much harder material than marble, cannot be re-polished after installation. Hence, some differences may be felt at the joints. Subject to clause 14.3, the tonality and pattern of the marble, limestone or granite selected and installed shall be subject to availability.
- B. Timber Strips**
- Timber strips are natural materials containing veins and tonal differences. Thus, it is not possible to achieve total consistency of colour and grain in their selection and installation. Timber strips are also subject to thermal expansion and contraction beyond the control of the builder and the Vendor. Natural timber that is used outdoors will become bleached due to sunlight and rain. Thus, the cycle of maintenance on staining will need to be increased as required.
- C. Air-conditioning system**
- To ensure good working condition of the air-conditioning system, the system has to be maintained and cleaned on a regular basis by the Purchaser. This includes the cleaning of filters, clearing of condensate pipes and charging of gas. The Purchaser is advised to engage his own contractor to service the air-conditioning system regularly.
- D. Television and/or Internet Access**
- The Purchaser is liable to pay annual fee, subscription fee and such other fees to the television and/or internet service providers or any other relevant party or any relevant authorities. The Vendor is not responsible to make arrangements with any of the said parties for the service connection for their respective channels and/or internet access.
- E. Materials, Fittings, Equipment, Finishes, Installations and Appliances**
- Subject to clause 14.3, the brand, colour and model as specified for all materials, fittings, equipment, finishes, installations and appliances to be supplied shall be provided subject to the Architect's selection and market availability.
- F. Layout/Location of Fan Coil Units, Electrical Points, Television Points, Telecommunication Points, Audio Intercom System, Door Swing Positions and Plaster Ceiling Boards**
- Layout/Location of fan coil units, electrical points, television points, telecommunication points, audio and video intercom system monitor, door swing positions and plaster ceiling boards are subject to the Architect's final decision and design.
- G. Warranties**
- Where warranties are given by the manufacturers and/or contractors and/or suppliers of any of the equipment and/or appliances installed by the Vendor at the Unit, the Vendor will assign to the Purchaser such warranties at the time when vacant possession of the Unit is delivered to the Purchaser.

**H. False Ceiling**

The false ceiling space provision allows for the optimal function and installation of M&E services. Access panels are allocated for ease of maintenance access to concealed M&E equipment for regular cleaning purposes. Where removal of equipment is needed, ceiling works will be required. Location of false ceiling is subject to the Architect's sole discretion and final design.

**I. Glass**

Glass is manufactured material that is not 100% pure. Invisible nickel sulphide impurities may cause spontaneous glass breakage, which may occur in all glass by all manufacturers. The Purchaser is recommended to take up home insurance covering glass breakage to cover this possible event

**J. Mechanical Ventilation System**

Mechanical ventilation fans and ductings are provided to toilets which are not naturally ventilated. To ensure good working condition of the mechanical ventilation system, the mechanical ventilation system for the exhaust system within internal toilets (where applicable) is to be maintained by the Purchaser on a regular basis.

**K. Wall**

All wall finishes shall be terminated at false ceiling level. There will be no tiles/stone works behind kitchen cabinets/long bath/vanity cabinet/mirror.

**L. Fibre/Internet Services**

The Vendor shall endeavour to procure a service provider for cable television and/or internet services (the "Fibre/Internet Services") to provide the necessary cabling or connection from its network to the Unit/Building and/or the Housing Project (or any part or parts thereof), so as to enable the Unit/Building and/or the Housing Project to receive the Fibre/Internet Services. In the event, despite reasonable efforts being made by the Vendor, the Vendor is unable to procure any service provider to provide the said cabling or connection, thereby resulting in there being no Fibre/Internet Services available in the Unit/Building and/or the Housing Project, the Vendor shall not be liable to the Purchaser for any compensation or for any damages, costs, fees, expenses or losses whatsoever, or howsoever incurred, by virtue of the Purchaser being unable to obtain the Fibre/Internet Services in the Unit/Building and/or the Housing Project.

**M. Tiles**

Selected tile sizes and tile surface flatness cannot be perfect and are subject to acceptable range described in Singapore Standards SS283:2000. Porcelain tiles are pre-polished before laying and care has been taken for their installation. However, porcelain tiles cannot be re-polished after installation, hence some level difference may be felt at the joints.

**N. Glass Curtain Wall Facade System**

Glass Curtain wall facade systems are typically designed with extruded aluminium members, infilled with glass/glazing panels. Small amounts of controlled water penetration are deemed acceptable in curtain wall facade systems. Controlled water penetration is defined as water that penetrates beyond the inner most vertical plane of the facade, but has a designed means of drainage back to the exterior and such water penetration is restricted to the curtain wall. Such water penetration shall not seep into the units. Fire stopping at the perimeter slab edge, which is a gap between the floor and the backpan of the curtain wall is essential to slow the passage of fire and combustion gases between floors. Spandrel areas must have non-combustible insulation at the interior face of the curtain wall. As such, curtain walls and perimeter sealants require maintenance to maximise service life. Removal and replacement of perimeter sealants require surface preparation and proper detailing. Care must be taken when cleaning areas around powder coated aluminium material as some cleaning agents will destroy the finish. Exposed glazing seals and gaskets require regular inspection and maintenance to minimise water penetration, and to limit exposure of frame seals and insulating glass seals to wetting.

The Vendor or the management corporation (when formed) shall be responsible for the maintenance of the curtain wall and perimeter sealants and cleaning of the curtain wall.

**O. Waste Disposal System**

All units are provided with communal refuse hopper at the common areas. There is no refuse chute in the Unit.

**P. Mobile Phone Reception**

Telephone reception on mobile phones within the Housing Project is subject to availability/provision of satellite/wireless coverage by the respective mobile telephone network service providers and is not within the purview/control of the Vendor.

**Q. Home Fire Alarm Detection Device**

Home fire alarm device (HFAD) consists of a smoke detector which shall be provided in each unit. The Purchaser shall ensure good working condition of the HFAD. The HFAD in each unit is to be maintained by the purchaser on a regular basis.
